

Prof.Dr.Hamidreza Khankeh

Personal Information:

Date and place of birth: 22 Dec 1967 - Arak, Iran

Marital status: Married

Nationality: Iranian

Address:

Health in Emergency & Disaster Research Center,
University of Social Welfare and Rehabilitation Sciences
(USWR), Velenjak, Kodakyar Street, 1985713871 Tehran,
Iran

Telephone: +982122180160

Fax: + 982122180160

Email address:

ha.khankeh@uswr.ac.ir, hrkhankeh@gmail.com

hamidreza.khankeh@bih-charite.de

Main Expertise: Developing training courses and designing and conducting studies in the field of Emergencies and Disasters Health and Public Health using qualitative methodology and mixed methods

Personal Information	
Date and place of birth	22 Dec 1967 - Arak, Iran
Marital status	Married
Nationality	Iranian
Education	
09-2010 – 09-2015	Post-Doctoral research fellowship in Emergency and Disaster Health, Department of Clinical Science and Education, Karolinska Institute, Södersjukhuset (KI SÖS)
03-2002- 05-2007	Ph.D., Iran University of Medical Sciences (IUMS) in nursing focusing on Emergency and Disaster Health Thesis Title: <i>Designing a model for health care services at the time of disaster: A Grounded Theory Study</i>
02-1991- 05-1995	Master of Nursing at Shahid Beheshti University of Medical Science and Medical Education, Tehran, Iran
06.1988-01.1991	Bachelor of Nursing, Iran University of Medical Sciences, Tehran
Positions	
2024- Present	Research fellowship: QUEST Center for Responsible Research, Berlin Institute of Health at Charité, Berlin, Germany
2022- 2024	Deputy of Research and Technology at the University of Social Welfare and Rehabilitation Science Tehran
2023-2024	WHO consultant for Hospital Safety Index in Iraq- Baghdad, Hospital Preparedness Program, Oman- Muscat
2020 –2022	Chancellor of the University of Social and Rehabilitation Sciences Tehran (USWR)

2019-Present	President of the Scientific Association for Health in Emergencies and Disasters, Iran
2015- Present	President of the National Scientific Board for Emergencies and Disaster Health, MOHE
2021-2022	Head of the national research team and principal investigator for the Covid-19 vaccine acceptancy in Iran
2020-2023	Head of the Covid-19 Social Observatory of Iran
2020-2020	Team leader for the operational readiness of the World Health Organization (EMRO-Mideast region)
2018 -2020	Vice-chancellor of the National Emergency Medical Organization of Iran
2017-Present	Permanent member of the Iranian Academy of Medical Sciences
2011-Present	Senior Researcher at Karolinska Institute, Department of Clinical Science and Education, Stockholm, Sweden
2017-present	Professor at the University of Social Welfare and Rehabilitation Science
2019- 2022	Visiting scientific researcher from the Alexander Von Humboldt Foundation at the Free University of Berlin
2014-2017	Deputy of Research and Technology at the University of Social Welfare and Rehabilitation Science Tehran
2012-2014	Deputy of treatment and rehabilitation at the University of Social Welfare and Rehabilitation Science Tehran
2012- 2014	Head of Department of Nursing in USWR
2010-Present	Head of Health in Emergency and Disaster Research Center in USWR and Head of the Department of Health in Emergency and Disaster in USWR
2010-2014	Deputy of the National Emergency Organization in the Iranian Ministry of Health and Medical Education
2008 – 2012	National advisor for Deputy of Nursing in the Ministry of Health in Emergency and Disaster of Iran
Research projects (all National projects ordered and funded by the Iranian Ministry of Health and Medical Education (MOHME))	

- Principal investigator of the Joint Emergency Dispatch System (SOS) in Iran funded by the World Health Organization
- Principal investigator to develop a national program for disaster preparedness and response funded by the National Disaster Management Organization of Iran (NDMO)
- Scientific Coordinator of the research project for designing a model for integrating disaster management in Tehran (Integrated Disaster Management) with The Free University of Berlin in Germany
- Developing National guidelines for Hospital Risk Management using multi-methods
- Developing National guidelines for disaster leveling using multi-methods
- Developing a National Response Framework in health (NRF) using multi-methods
- Developing National tools for:
 1. Hospital Disaster Risk Management using multi-methods
 2. National Risk Assessment using multi-methods
 3. National Health Surge Capacity mixed method
 4. National health capacity using multi-methods
- Developing disaster preparedness plan for Tondgoyan Oil Refinery (Funded by Tondgoyan Refinery)
- Developing strategies to improve Emergency Management Systems in MOHME
- Developing Disaster Rehabilitation Model in Iran Using Grounded Theory approach
- Developing a National Disaster Preparedness Program, Funded by the WHO
- Evaluating Reproductive Health after Iranian Recent Disasters, funded by UNFPA
- Exploring the experiences and perceptions of HEMS doctors in European countries regarding their non-medical activities funded by the Department of Clinical Science and Education, Karolinska Institutet

Supervision

2010- Present: Main supervisor of 28 Ph.D. projects and Co-supervisor of 30 Ph.D. projects at USWR, Tehran University of Medical Science, Iran University of Medical Science, and other Universities

2007-2018: Co-supervisor of 6 Ph.D. projects at Karolinska Institutet, Leipzig University, and Mid-Sweden University

PhD Thesis:

- ☐ Explaining the process of delegation of authority in nursing clinical managers
- ☐ Designing a leveling model of emergencies and multi-hazard early warning system for the Tehran metropolis
- ☐ Examining the challenges and obstacles in reducing deaths and injuries caused by traffic accidents and providing corrective recommendations
- ☐ Explaining the mourning process in elderly parents of deceased martyrs
- ☐ Design and psychometrics of measuring the resilience of the health system against flood risk
- ☐ Developing the theory of spiritual self-care of nurses in biological events and providing recommendations
- ☐ Effects of climate change on infectious diseases in Iran (cholera and malaria)
- ☐ Designing a local model for the development of community participation in disaster risk management in Iran's health system
- ☐ Improving the Patient Safety Process in Spinal Cord Injury (SCI) (Ward Rofaydeh Rehabilitation Hospital: action research)
- ☐ Hospital Resilience Assessment: Designing (Development) and Validation of a Comprehensive Tool
- ☐ Exploring the theory of occupational balance in post-COVID-19 survivors and presenting corrective solutions
- ☐ Designing a community first responder model for pre-hospital emergency
- ☐ Developing Clinical Reasoning Skills of nurses in the Coronary Care Unit (CCU) of Dr. Heshmat Educational and Medical Center in Rasht
- ☐ Development of risk communication theory in biological events in the Iranian health system
- ☐ Modeling of Bio-Centric Acting Based on Bio-Centric Health Management Pattern for Iranian Emergency or Non-Emergency Drivers
- ☐ Developing of Iranian Pre-Hospital Emergency Preparedness Assessment tool in Emergencies and Disasters.

- ☐ Developed the theory of early rehabilitation in patients with traumatic brain injury and Extraction of corrective care advice
- ☐ The combined effect of dust storms and meteorological elements on cardiovascular, cerebrovascular, and respiratory diseases in the city of Dezful
- ☐ Designing a theory of work performance change in people recovering from drug use in the 60 Congress
- ☐ Designing the National Database of Natural and Man-Made Disasters and Accidents in Iran
- ☐ Developing of Iranian Pre-Hospital Emergency Preparedness Assessment tool in Emergencies and Disasters.
- ☐ Developing the theory of managing patients in biological events in Iran and presenting strategies
- ☐ Improving the process of care for Patients with Trauma Emergencies by staff of the emergency department of Shiraz Shahid Rajaee Hospital
- ☐ Designing a National Early Warning System model for Emergency and Disaster in the Health sector
- ☐ Develop the theory of climate change risk perception in Tehran people and extract corrective recommendations
- ☐ Exploring the process of transitional care from hospital to community in individuals with spinal cord injury
- ☐ Developing the theory of interacting presence in the formatting of human dignity in the urban public space
- ☐ Designing and Validation of a Hospital Preparedness Tool in Biological events
- ☐ Exploration Process Transition care of Patient from Intensive Care Unit to General ward: a grounded theory study
- ☐ Development of a context-bound hospital Triage model for disasters and Mass Casualty Incidents (MCI) in Iran
- ☐ The Lived Experience of Never Married Older Adults, A Phenomenological Study
- ☐ Designing and psychometric evaluation of the tool loneliness for older adults
- ☐ Designing an Evaluation Model for Disaster Risk Management in Iranian Hospitals
- ☐ Designing a context bond model for National Medical Response Teams (NMRT) in emergency and disaster from local to national level
- ☐ Exploring Occupational Performance of Primary Caregivers of Individuals with Multiple Sclerosis, and Examining the Effectiveness of Interventions Designed from It: A Mixed Method
- ☐ Investigating Dimensions of Information Technology Explanation with Ineffective Defense Engineering Approach in Sub-Assemblies of Mazandaran University of Medical Sciences
- ☐ Designing a context-bond model for spinal cord injury in the prehospital phase due to road traffic injuries and exploring corrective strategies: an integrated method
- ☐ Designing an Evaluation Model for Disaster Risk Management in Iranian's Hospitals
- ☐ Developing and Psychometric Evaluation of Elderly Social Vulnerability tool in Natural Disasters: A sequential exploratory mixed method study
- ☐ Designing a Representative Model for sexual satisfaction Social Work Service
- ☐ Exploration of the nurses' support process as the second victim after Medical error
- ☐ Designing A context bond model for public safety answering points (Dispatches) in emergencies and exploring corrective intervention in Iranian
- ☐ Designing and validation of moral distress scale in pre-hospital emergency service providers
- ☐ Investigation of the efficacy of occupational performance coaching program on self-efficacy and occupational performance of mothers of children with cerebral palsy and exploring contextual barriers and facilitators strategies used by mothers: A mixed method
- ☐ Construction of Hospital Social Welfare Professional Identity
- ☐ Designing and validation of factors influencing nursing students' clinical judgment tool: A sequential exploratory mixed method study
- ☐ Designing a Representative Model for Pediatric Oncology Social Work Service
- ☐ Designing a context-bound model of returning to life after an earthquake in older adults
- ☐ Exploring the Process of Resilience and Developing Strategies for its Promotion in People with Spinal Cord Injury Having Low Resilience
- ☐ Design of post-traumatic growth model in patients with spinal cord injury

- ☐ Concept development and phenomenology of nursing errors
- ☐ Preparing and determining psychometric properties of the Persian version of ISAR TOOL in a sample of Iran
- ☐ Development and psychometric properties of the Activity of Daily Living questionnaire for patients with Chronic obstructive pulmonary disease
- ☐ Exploring the process of rehabilitation care of multiple trauma victims due to traffic accidents
- ☐ Designing a Knowledge Utilization Model in HEALTH among older people in an Iranian context
- ☐ Exploration of the process of nursing encounters with natural disasters
- ☐ Designing a model of care among community-dwelling older people in an Iranian context
- ☐ The Explanation of Occupational Performance in People with Chronic Low Back Pain
- ☐ Explanation of the process of the fall and designing a representative model of falls in the elderly in an Iranian context
- ☐ Exploring the process of prehospital care service in traffic injuries in Tehran
- ☐ Exploring the process of home health care service to ventilator-dependent patients
- ☐ Exploring Creativity Process in Nursing Practice: Designing a Model
- ☐ Exploration of the process of pre-hospital care in burn victims
- ☐ Presenting a model for managing the situation of disabled people in natural crises in Iran (case study: earthquake)
- ☐ Presenting a model for managing non-communicable diseases during natural crises in Iran (a case study of diabetes and chronic respiratory disease)
- ☐ Exploration of the process of support for parents with cerebral palsy children
- ☐ Exploring the process of interprofessional communication in the Emergency Department
- ☐ Explanation of Clinical Education Process in Occupational Therapy
- ☐ Exploration of the social rehabilitation process after disasters
- ☐ Exploration of the process of suicide by self-immolation from an Occupational Therapy perspective
- ☐ Determine Index and Indicators of Social Health in Iran
- ☐ The Lived Experiences of Elderly Parents of Children with Intellectual Disability: A Phenomenological Study
- ☐ Exploring the process of maternal handling the children with cerebral palsy at home
- ☐ Development of a suicide protocol
- ☐ Developing a child abuse protocol
- ☐ Explore Problems of Women with Multiple Sclerosis

Master Thesis:

- ☐ The effect of implementing the 5A self-management program on the self-care ability of hemodialysis patients admitted to Hazrat Rasool Akram (PBUH) hospital in Kalaleh city.
- ☐ The Effect of Telemedicine on Anxiety and Quality of Life of Patients with COVID-19 Discharged from Imam Khomeini Amol Hospital in 1400
- ☐ The effect of communication skills training for the parents of cerebral palsy children on their anxiety and Quality of Life (QOL)
- ☐ Investigating the effect of educational intervention based on the understanding of the disease on compliance with treatment and quality of life of spinal cord injury patients admitted to Rofaydeh Rehabilitation Hospital in Tehran in 1400
- ☐ Evaluation of Elderly Social Vulnerability in Natural Disasters in Tehran City.
- ☐ Investigating the relationship between patient safety culture and factors affecting medication errors in nursing staff working in hospitals affiliated with Shahram Ilam University of Medical Sciences in 2018
- ☐ Investigating the Effect of pelvic floor exercises on Urinary incontinence and the Sexual quality of life in MS patients referring to the city of Mashhad in 1400
- ☐ Assessing the awareness and attitude of taxi and bus drivers, police, and firefighters in Sari about first aid in the year
- ☐ Examining the individual, family, and social situation of the clients at the social emergency centers of the country
- ☐ Determining the readiness level of the Kahrizak elderly in the Tehran earthquake using the standard tool in

- ☐ The effect of training skills in using mobility assistive devices on self-esteem and self-efficacy in patients who suffered a stroke in teaching hospitals of Shahrekord University of Medical Sciences in 2018
- ☐ The study of hospital incident command system on the preparedness of Naga hospitals Tehran in disaster using simulated conditions
- ☐ Comparison of Pre-hospital and Hospital emergency nurses' Job satisfaction, in the City of Mashhad, in 2017
- ☐ Effect of Multimedia Orientation Tour on anxiety and Satisfaction of patients with thyroid cancer of candidate Iodine therapy in Imam Khomeini Hospital complex, Tehran in 2017
- ☐ Comparison of Patient Waiting Time and Satisfaction Levels of Nurses and Elderly Patients in Shifts with and Without Triage
- ☐ Comparison of the effect of two competency-based educational methods and lectures on knowledge and practice of nurses in the field of hospital triage in nurses of Golestan province
- ☐ ' The Effect of the Implementation Hospital Risk Management Program on Hospital Preparedness and Nurses Professional Competency in Response to Accidents and Disasters in Rofaydeh Rehabilitation Hospital
- ☐ Evaluating The Quality of Care in Pediatric Trauma in Selected University Hospitals in Tehran
- ☐ The Effect of Music Therapy on Pain and Anxiety of Children Diagnosed with Leukemia during Bone Marrow Aspiration and Lumbar Puncture Procedures
- ☐ The effect of Mentorship method on stress and self-esteem of nursing students in Shahrood Imam Hussein Hospital
- ☐ Study of preparedness status in all hospitals of Mazandaran University of Medical Sciences and Mazandaran Provincial Social Security Organization against disasters based on the national standard tool
- ☐ Considering The Relationship Between Ego-Resiliency with Post Traumatic Stress Disorder in Mature Male and Female Survivors of Bam Earthquake in 2003
- ☐ The Effects of applying an Early Warning System in hospital disaster preparedness at Emam Khomeini Hospital Sari
- ☐ The effect of training the principles of surge capacity development to nurses on preparedness and response capacity of Motahari Hospital 2015
- ☐ National Hospital Risk Management Guideline on Hospital Safety and Preparedness and Staff Readiness Using Simulation and National Risk Assessment Tool
- ☐ The effect of first aid and injured carry training on the knowledge attitude improvement of taxi drivers in the Mashhad city
- ☐ The effect of foot reflexology massage on pain and anxiety of patients after abdominal surgery in Tehran Imam Khomeini Hospital Complex in 2015
- ☐ Effect of education based on Bandura Social Cognitive Theory on General Self-Efficacy and Diabetes Management in diabetic type patients
- ☐ The effect of obscure knowledge transfer method based on storytelling method on compliance of infection control by nurses in the ICU departments of Imam Khomeini and Shahid Mostafa Khomeini hospitals in Ilam City in 2012
- ☐ The effect of cognitive behavioral group intervention on newly graduated nurses' stress in selected hospitals of Isfahan University of Medical Sciences
- ☐ Effect of acupressure on pain, stiffness, and physical function of the knee among nursing home residents with osteoarthritis in Tehran 2015
- ☐ The effect of exercise program on neuropathic and musculoskeletal pain intensity in spinal cord injury patients, khatam-al-anbia Hospital, 2015
- ☐ The effect of nursing consultation on anxiety and satisfaction of patient's family at the Cardiac Surgical Intensive Care Unit
- ☐ Scanning non-structural and functional vulnerability rehabilitation centers in Tehran Welfare organization in dealing with accidents and natural disasters using national standards in 1339
- ☐ The type of intervention effect to reduce the risk of earthquake readiness among the elderly in Hadyshehr Julfa, Eastern Azerbaijan in 2014
- ☐ The Effectiveness of Acupressure on Severity of Pain, Fatigue, and Quality of Life in Patients with Chronic Heart Failure

- ☐ The effect of Tai Chi Chuan on Depression and Anxiety levels among elderly women who are members of Tehran's Industry Oil Retirees Club
- ☐ The effect of collaborative care model application on sleep quality of patients undergoing Coronary Artery bypass graft Surgery referred to cardiac rehabilitation at Shiraz Shahid Faghihi Hospital in 2015
- ☐ Effect of earthquake education to pupils aged 10 on their readiness and their families in Gorgan
- ☐ Study of nurses' professional competency in the emergency ward of Tehran training hospital and Pre hospitals center in Disaster and events
- ☐ The effectiveness of "resiliency skills education" on addict ability level and changing attitude towards substance among secondary school students in Khorramabad
- ☐ Comparison of the effectiveness of simulation training and integrated methods (theory and simulation) and traditional methods (theoretical) on spinal Immobilization in traffic accidents on Prehospital Emergency Nurses in Tehran 92
- ☐ Comparative study of the Effect of learning and applying the principles of non-structural and functional safety of hospital nurses on medical ward preparedness Rofaydeh, psychiatric Razi and Day hospitals against disasters based on the Hospital Safety Index on hospital preparedness in
- ☐ The effect of education based on national Guidelines on hospital disaster preparedness and Response Burn Motahari Hospital, Tehran to Disaster
- ☐ The effect of the implication of the Mauck nursing rehabilitation model (Agonizing phase Fantasy phase Realizing phase) on the coping strategies and life skills of stroke patients
- ☐ The impact of training on the application of the Iranian pre-hospital stroke scale (IRPSS) for accuracy diagnosis and transferring time of stroke patients by emergency technicians in Arak city
- ☐ Effect of music on quality of sleep in elderly male members of the Association of Oil Retires Isfahan City in 2012
- ☐ The effect of the implication of the Mauck nursing rehabilitation model (Blending phase Framing phase Owning phase) on the adjustment and self-efficacy of stroke patients
- ☐ The effect of group poetry therapy on Depression in the elderly
- ☐ Residents of a nursing home in Arak in 2012
- ☐ Educational needs assessment of the Rehabilitation Management (Master of Science) based on students and graduates' experiences and perceptions
- ☐ Correlation between the family caregivers' burden and family function in the family of chronic mental disorders in Razi Psychiatric Therapeutic Teaching Center
- ☐ Assessing the effect of group spiritual care on marital adjustment of the addict in Isfahan NA groups and their couples in 2012
- ☐ Effect of the simulated training course on the preparedness of nurses to do pre-hospital triage at Razi Psychiatric Hospital 1390
- ☐ The effect of earthquake preparedness training on male high school students by nurses in their family preparedness in Eshtehard 1389-1390
- ☐ The Effect of Home-based Pulmonary Rehabilitation Nursing on Fatigue, Activity Daily Living, and Quality of Life of Patients Suffering from COPD Who Referred to Dr. Masih Daneshvari Hospital
- ☐ Evaluation of Tehran Emergency Center Staff Knowledge, Attitude, and Clinical Skill in Dealing with Trauma, 2011
- ☐ Effect of performance of preparedness plan on the preparedness of nursing staff for responding to postulated earthquake disaster in Razi psychiatric hospital in 1388
- ☐ The situation of knowledge management in the nursing system and present effective strategies to enhance it in hospitals of Bushehr 1389
- ☐ The effect of a rehabilitation program on recovery from lymphedema related to mastectomy
- ☐ Treatment effect of elderly sleep restrictions, member of Jahandidegan Association in Shiraz (88-year)
- ☐ The effect of education of hospital incident command system on the preparedness of disaster committee and nurses in Zarand hospital-1389
- ☐ The effect of systemic model social work interventions on decreasing rehospitalizations in schizophrenic patients in Razi Psychiatric Center
- ☐ The study of Zanjan rehabilitation facilities' disaster preparedness

- ☐ The Evaluation of Implementation of Coordination-Based Disaster Response Model in Rajaye Hospital Disaster Preparedness in Simulated Condition 1388]
- ☐ The effect of Emotional Intelligence (EI) Education on Conflict and Conflict Management Styles (CMS) in Razi Hospital nurses 1388)
- ☐ Quality of life Among Caregivers of acute And Chronic Schizophrenic patients Razi Hospital at 1387
- ☐ Study the training effect of time management on work conflict - nurses life who work in hospitals of social welfare rehabilitation Sciences University 1386
- ☐ Study the effect of massage(S.B.M) on blood pressure anxiety of elderly with blood pressure residents of Kahrizak Sanitarium (85-year)
- ☐ Effects of Psychodrama on depression and mental state among Women with chronic mental disorder
- ☐ Study the effect of applying a continuous care model on the life quality of schizophrenic patients discharged from a training treatment center in Sinashahr of Hamedan
- ☐ Study the effect of home care on complications of immobility in patients with stroke at Semnan 1381-1383
- ☐ Study the job satisfaction of nurses working in Razi Psychiatric hospitals it's related factors 1382
- ☐ The effect of the home care program on family APGAR families with cerebral palsy children who were under the protection of welfare in Shirvan

Awards and honors:

- Winner of the Alexander von Humboldt Foundation Germany as a nominated international researcher (2019)
- Professor and excellent researcher of USWR for 10 consequences years (2012-2022)
- Exemplary researcher of the Iranian Academy of Medical Sciences (2020)
- National Exemplary nurse (2002)
- Top national young researcher (2004)
